Personal Profile

Completed my Bachelor's Degree in Software Engineering from International Islamic University Islamabad Pakistan. Learnt about each phase of Software Development Lifecycle, Database development (SQL) and programming languages such as C++, HTML, JavaScript, Asp.net and Java. Created mini projects that required programming and database connectivity. Developed Android Application as final year project.

Currently enrolled in a Digital Skills Bootcamp at JustIT Training. Aiming to improve my skills further and grasp a better understanding of software languages (HTML, JavaScript and Python). Working on my portfolio to create some personal projects.

Would like to work as a Junior Developer to gain more skills and experience. I thrive working in a challenging environment to push my skills and limit.

Education and IT Training

02/22-Present	**Just IT Training Ltd, London** **Digital Skills Bootcamp: Software Development** A twelve-week intensive bootcamp covering the fundamentals of Web and Software development.
